HUSQVARNA K 1270

Art.no: 967 97 88 01

Some jobs require exceptional power. The K 1270 is a real powerhouse with an impressive 5,8 kW output, turning your heaviest cutting jobs into a fast and effective operation. Suitable for road works when used with the corresponding KV 9/12 trolley. The trolley also means you can fully concentrate on the cutting job.

FEATURES

Superior power with low emissions

Patented X-torq™ engine that uses air to flush out the cylinder provides exceptional power but keeps fuel consumptions and emissions low.

Easy to start

The unique design of the carburetor, cylinder and digital ignition system, together with air purge and decompression valve, ensure an easy start.

Maintenance-free air filter

The only time the filter needs to be checked and changed is if you experience lack of power.

Anti-vibration system

Our anti-vibration system reduces vibrations in the cutter handles, so they are more comfortable to hold and can be used for longer periods. To provide the user a comfortable operating position reduced strain, the distance between the handles is large. The handles and the short engine body mean the user always stands close to the machine, for easier handling and control.
