

## Precision Grading with a Blade

Universal compatibility. Nothing else like it.

Many prefer a grader blade over a box grader. Now you can work in windrows with the ability to adjust the working width of your precision grade. Smooth operation, and legendary Level Best performance.

Side-shift to reach and place windrow.

The new "King of Cut"  
Precision grading to within 0.1" of spec.

Compatible with all power and guidance systems.  
Highly versatile in manual mode.

Precise grades to within 0.1" of spec let you  
reduce material overage estimates to help win  
more contracts

- The only Precision Grader Blade with Mix & Match compatibility
- **Optional End Plates** to carry and guide material
- Faster to achieve a consistently smooth, highly accurate grade
- One of the most flexible and productive attachments available
- No daily maintenance - helps maximize profitable uptime

Cuts sod and topsoil like a knife.
