USAGE

Skid steer stump grinders are essential tools for tree care professionals, contractors, or homeowners who want to remove a stump from a property.

- The positioning of the cutting disc is achieved by maneuvering the carrier
- Cushioned Parallelogram Mechanism alleviates overload
- Available for both low and high flow skid steers and mini track loaders
- 6-way positioning with swing, lift, and telescoping functions operated from inside the cab with our hand-held controller
- Available for high flow skid steers
